# Backup Plan Checklist

**I will be sure to do the following things ahead of time in case my abuser comes home when I am leaving.**

**I will be prepared.**

\_\_\_ I will hide any evidence of leaving as I go.

\_\_\_ I will prepare an escape route, such as staying in rooms where there are multiple exits and planning which exit I will take. I will hide all visible sharp objects in case he suspects I am leaving.

\_\_\_ I will not tell my children that we are leaving until it is safe to do so.

\_\_\_ I will tell trusted friends, family, or neighbours about the violence and give them my full address, including apartment number, so they can call the police if they need to.

\_\_\_ I will give my full address, including apartment number, and set up a code word with people I trust so when I text them or speak the code word, they will know to call the police right away.

\_\_\_ If able, I will wait until he leaves again and exit the house or apartment through a back stairwell/door so I don't run into him on the way out.
